

EPIDIOLEX[®] (cannabidiol) Travel Document

EPIDIOLEX is now recognized by the Transportation Security Administration (TSA) as an FDA-approved cannabis-derived medication and is permitted to legally cross state lines within the US.

- ✓ Keep EPIDIOLEX in your carry-on in the event you need immediate access {TSA.gov, 2014 #1960}
- ✓ TSA allows FDA-approved liquid medications in excess of 3.4 ounces in carry-ons {TSA.gov, 2014 #1960}
 - Keep medicine in its original container with the original label attached {TSA.gov, 2014 #1960}
 - Per TSA regulation, it is not necessary to place medically required liquids in a zip-top bag {TSA.gov, 2014 #1960}
- ✓ Before the screening process begins, inform your TSA officer that you have medication in liquid form {TSA.gov, 2014 #1960}
- ✓ Carry the EPIDIOLEX Prescribing Information with you when traveling

Check the [TSA website](#) prior to traveling for the most up-to-date information.

Since each country's laws vary, Greenwich Biosciences is not able to provide guidance regarding travel with EPIDIOLEX to countries outside the United States.
